Problem statement : Elders in urban and rural areas in Haiti experience difficulties in accessing services provided through regular programs hence need specific intervention designed and implemented to address their needs. Most of them don't receive a Christian education to be prepared for eternity, so there is a problem of salvation for their souls. Furthermore, they are abandoned by their relatives. Most of them live by themselves in very bad condition without bed and food.

Mission statements : Provision of adequate care and support to vulnerable elders and assisting them to be nourished with food and the word of God.

Target group : Abandoned elders, widows Christians and no Christians

Activities : counseling and care support, health care and training support in a Christian perspective.

: Two visits a week

: A medical visit, if need be

Outcomes

: Improve welfare and Christian treatment of vulnerable elders and widows at Jacmel in the Southeast Department of Haiti to start the project. Community members in the project area sensitized on special needs of the vulnerable elders.

Mission

: Take care of the vulnerable elders and widows in a Christian perspective in order to bring them to the Lord.

Specific objectives

1. To support the registered elders physically, educationally, socially and spiritually,
2. To fill the gap caused by giving advice whenever possible.
3. to care for emergency health care
4. to evangelize them for the Lord

Target group 20 (twenty elders: men and women) to start the project.
