The Center of Refuge Orphanage

The Center of Refuge was a learning center prior to the earthquake of 2010. Children spontaneously gathered there as humanitarian supplies were delivered by first responders. Pastor Joseph and his wife Roussemie began feeding and caring for the children. Children from displaced homeless families, continued to bring their friends. Parents begged to have their children stay at the Center for a chance at a better life.

25 children remain as well as Pastor Joseph his wife Roussemie and their six children. Your minimum donation of \$300 gives the children of Center for Refuge Orphanage an opportunity for education.

Additional funds are needed for nourishment, clothing, housing, medical care, and higher education. The actual cost to provide for an orphan is about \$3000.00 per year.

Children may have more than one sponsor.

A sponsor might choose to donate more than the \$ 300.00 per year.

All donations benefit the child. No administration fees are deducted.
